

Criticisms Answered.

The U.F.A. candidates in 1921 were elected to abolish the patronage system and place the expenditure of public money as far as possible upon a fair basis to all constituencies.

Their efforts proved successful and the election of 1926 vindicated their policy.

The election campaign of 1930 is unique in that all parties admit that the U.F.A. Administration has had an outstanding record under the re-sourcesful and able leadership of Premier Brownlee. That the Premier will be returned to power is a fore-gone conclusion. Hence the cam-paign tactics of the opposition have been directed not on the Premier and the record of his administration so much as on the record of the gov-ernment members in various constitu-encies.

For example in this constituency of Wainwright the main attack is that the U.F.A. candidate has failed in re-cent years to give proper representa-tion for this constituency in that Wainwright has not received a fair share of the expenditure of public money especially in connection with roads. The following facts are there-fore presented in order that the elec-tors may know whether this claim is warranted or not.

Government Grants for District and Local Roads in the Wainwright Constituency.

1917	— \$312.00
1918	— \$380.00
1919	— \$2008.00
1920	— \$1710.00

Yearly average Wainwright Constituency \$1097.00.

Yearly average spent by province, \$250,957.00.

During the election year of 1921 the former government spent two-thirds of a million dollars which was twice the amount appropriated by the legislature. Of this amount Wainwright received \$7,835.00.

Road money under the U. F. A. Government has been allotted by municipal districts and not by constituencies. Wainwright's share of these municipal grants is as follows:

1922—\$8117.00	1927—\$3895.00
1923—\$2866.00	1928—\$3752.00
1924—\$8727.00	1929—\$3070.00
1925—\$4461.00	1930—\$7698.00
1926—\$4368.00	Total, \$49,784.00

Yearly average Wainwright Constituency \$5,532.00.

Yearly average spent by Province, \$329,879.

In spite of new territory opened up in the north country which formerly received no government road money, the Wainwright Constituency under the U.F.A. government has received yearly, 40 per cent. more government road money than it received prior to 1921 while for the same period the U.F.A. government has only increased its average yearly expenditure for district and local roads 31 per cent.

Here are the Facts.

Average yearly expenditure dis-trict and local roads.

Prov.	Wainwright	Received
1917-20	\$250,957	\$1,097
1922-30	\$29,879	\$5,532
Increase	31 p. c.	404 p. c.

The following are the average grants for the two years 1929 and 1930 earned by and allotted to four of Wainwright's M.D.'s.

M. D. 392	\$1441.60
M. D. 421	1536.10
M. D. 422	1466.60
M. D. 423	1468.60

In addition to these grants from in-come account the above municipal units have earned capital grant from the government for the same two years amounting to a yearly aver-age of \$1400.00 per M. D.

Taking income and capital grants together the U.F.A. government is spending in the Wainwright constitu-ency approximately \$15,000. per year during 1929 and 1930 as compared to approximately \$100. prior to 1921.

Upon what basis can it be claim-ed that the present U.F.A. candidate has not obtained in recent years a square deal for the Wainwright con-stituency so far as government road money is concerned?

The Main Highway Situation

The Edmonton-Wainwright high-way was officially declared a main highway on April 10th, 1924. Since the U.F.A. government came into office some \$54,000. have been spent from income and capital accounts on the Kinsella to Buxie section of this main highway. The hard surfacing of this highway will however be done

in sections working from Edmonton east. The section from Edmonton to South Cooking Lake is now finished. A contract has been let to complete that section from South Cooking Lake to Tofield ready for gravel this year. The government's main high-way program for the immediate future is to complete all the east and west main highways working from the Calgary-Edmonton highway east in sections to the Saskatchewan boundary.

Government Telephones
Another proof that the Wainwright Constituency has made progress under the U.F.A. government is in con-nection with government telephones.

Here Are Some Facts

Telephone Capital Debt	
1929 \$22,727.00.
1921 20,680.00.
Increase 2,047.00.
Increase, percentage 9.9 p.c.
Number of Government Telephones in Province.	
1929 61,963
1921 50,611
Increase 11,352
Increase, percentage 22 p.c.
Number of Government Telephones in Wainwright.	
1929 649
1921 315
Increase 334
Increase, percentage 106 p.c.

Another Criticism Answered

The opposition seldom attacks la-bour members in the legislature for spending much of their spare time in advancing the cause of organized labour. In the Wainwright constitu-ency however, the opposition is em-phasizing the fact that the U. F. A. candidate has neglected his farming operations by spending much of his time in advancing the cause of the organized farmer.

The statement that the U.F.A. candidate holds a high salaried position with the Alberta Dairy Pool is entirely false. The U.F.A. candidate has not accepted and does not hold a salaried position with any of the provincial pools. For an organiza-tion service rendered the various farmer's marketing associations he has received nothing but the usual per diem expense allowance paid to those who render temporary assis-tance in such work.

The U.F.A. candidate has kept himself absolutely free at all times to attend to the needs of the Wain-richt constituency and is to be com-mended rather than criticized for spending so much of his spare time in working in the interests of the organized farmer rather than attend-ing strictly to his own private busi-ness activities.

Help to return the Brownlee Ad-ministration by working to secure the election of J. R. Love, the U. F. A. Candidate for the Wainwright con-stituency.

TORIES ENDORSE AN INDEPENDENT

At a meeting of local Conservatives held in the Masonic Hall, called for re-organization of that body in this district, with Mr. R. Smallwood, of Irma, in the chair, Mr. D. Duggan, the Conservative leader in the provincial house, was the principal speaker of the day.

In opening his address, Mr. Dug-gan expressed regret that the meet-ing had not seen fit to place a Con-servative candidate in the field, but stated that they had done the next best thing by giving endorsement to the support of the Independent candidate, and taking Mr. Pitman as their lead-er in the fight for a seat in the pro-vincial house.

At the commencement of the pro-ceedings, the business portion of the gathering elected the following offi-cers, after the previous minutes had been adopted.

Hon. pres.—Hon. R. B. Bennett
Hon. vice-pres.—Mr. D. M. Duggan
Pres.—Mr. R. Smallwood
Vice-pres.—Messrs. D. S. Pawsey and M. Greer.

Sec.Treas.—Mr. F. C. Dickens.
Directors—Chauvin: Mrs. Freeman W. McCluckey and G. Ryal; Rib-son: T. Smith, R. Wild; Edgerton: O. Dempsey, D. Pawsey, T. McFee, H. Kelly; Pitman: P. Boucher, E. L. B. McLeod; Wainwright: B. McNero, J. McLennon, W. Bailey; Fabyan: A. Taylor; Irma: T. Fisher, J. Watkin-son, E. McDowell; Jarrow: A. Christ-enson.

The meeting closed with the Na-tional Anthem.

Public Meeting

Premier BROWNLEE

WILL ADDRESS A MEETING

in the

Wainwright Theatre

Thursday, June 12th

At 8.00 p. m.

YOU ARE INVITED TO ATTEND

Public Meetings at Which J. R. Love, Will Speak

The General Public is invited to attend the following meetings at which the U. F. A. Candidate, Mr. J. R. Love will speak:

Bull Creek, Monday, June 9th, at 3.30 p.m.
Green Glade, Monday, June 9th, at 8 p.m.
Sulphur Springs, Tuesday, June 10th, at 8 p.m.
Willow Glen, Wednesday, June 11th, at 8 p.m.
Chauvin, Thursday, June 12th, at 2.30 p.m.
Wainwright, Thursday, June 12th, at 8 p.m.
Roseberry, Friday, June 13th, at 8 p.m.
Jarrow, Saturday, June 14th, at 8 p.m.
Irma, Monday, June 16th, at 8 p.m.

U. F. A. Radio broadcast will be given over Calgary and Edmonton stations on Tuesdays, June 10th and June 17th.

Premier Brownlee will address the Chauvin and Wainwright meetings.

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES

Services next Sunday at Straw-berly Plains and Roseberry. The topic "What Happened at Pentecost." The nineteenth anniversary of Pen-tecost will be celebrated throughout the Christian Church next Sunday. We invite all to share in the special service next Sunday.

The Rev. J. R. Geeson returned from Edmonton last Wednesday after attending Conference. There was a very large attendance; the increase in the number of laymen was a notice-able feature. The changes that go into effect in this Presbytery are that Rev. M. R. Gordon, who preach-ed last Sunday is appointed to Ryley, Rev. T. Taylor, of Bashaw, goes to Jarrow-Kinsella, and Rev. W. J. Hus-ton, B. A., of Innisfail, goes to Wain-richt. The Rev. J. L. Gordon of Tofield is appointed Chairman of the Presbytery and Rev. J. R. Geeson, secretary. In addition to this, Mr. Geeson is appointed assistant-secretary of Conference and for that reason was not able to take the ser-vices last Sunday.

The Conference public meetings were very inspiring in their character, especially was it a privilege to hear Rev. Dr. James Endicott speak on the Crisis of Our Foreign Missions. The devotional addresses of the rep-resentatives from the other churches, too, were of exceptional character. The Conference closed on Monday night (June 2nd) at 9.30 p.m.

ANGELICAN CHURCH SERVICE

Will be held in Irma United Church on Sunday, June 15th at 3 p.m.

Next W. A. meeting will be held on Tuesday, June 10th at the home of Mrs. H. Thurston at 2 o'clock. Every lady welcome.

The W. A. are holding a tea and sale of home cooking on Saturday, June 8th, 2 o'clock in the Wainwright Store, afternoon and evening.

ST. THERESA CATHOLIC CHURCH

IRMA, ALBERTA

Service on the first Sunday of each month at 11 a.m.

SPECIAL NOTICE

Owing to the Federal Convention in Wainwright on June 11th-the com-munity Committees decided to postpone "Cleanup Day" until June 25th at 10 o'clock.

Don't forget the necessary tools. Ladies please bring lunch. Hot coffee provided.

Committee in Charge.

TALKING PICTURES

AT IRMA
Irma is to have Talking Pictures on Wednesday of each week and will have the distinction of being the smallest town in Alberta, equipped for talkies, which should be a mat-ter of pride to every resident in this district. Talking Equipment is ex-pensive and Talking pictures are ex-pensive and as a district we feel sure everyone will do their best to boost for Irma and make the talkies a suc-cess. Mr. Kiefer has been a good sport to make this venture under present conditions.

PITMAN, OF CHAUVIN, RUNNING AS INDEPENDENT

A meeting held in the L.O.O.F. hall, Wainwright, last week end was called to order by Mr. McKechnie, of Chauvin, after which Mr. J. W. Stu-art, was unanimously elected to the chair, with Mr. W. Cubbit, to act as secretary of the gathering.

It was explained by the chairman that a desire had been expressed that the Wainwright constituency run an independent candidate for the pro-vincial contest, and Mr. Pitman had offered himself to contest the seat, provided he could obtain the neces-sary support for such a contest.

Mr. McKechnie moved a motion that an independent candidate be brought out and solidly supported; suggesting that all voting thereon should go on their honor as to sup-porting the independency of the in-dividual selected to represent them. The motion carried unanimously.

The chairman then calling for nom-inations, the name of Major E. A. Pitman of Chauvin, was placed before the meeting by Mr. N. Strachan. This being the only nomination, a motion that nominations be closed was car-ried.

BEEKEEPERS HAVE ENJOYABLE TIME

Wednesday afternoon over fifty en-thusiastic bee keepers from within a radius of fifty miles of Irma, met at one of Mr. H. W. Love's apiaries at Irma. Shortly after one o'clock Mr. S. O. Hillerud, provincial apiarist com-menced the demonstration by showing the proper method of hand-ling a hive of bees during the honey flow. This was followed by an in-spection of several different styles of hives that are being kept in this ar-ea. Among these being the top en-trance, Russian, or hive with double glass windows, middle entrance and the common bottom entrance hives. The weather was ideal for the hand-ling of bees and while some of the visitors were a little nervous at first, as there was not enough veils to go around it was only a few minutes before those who had put on veils were re-moving them and everyone was an-xious to crowd in and hear and see what was going on. Among the fifty spectators who had passed through the fifty or so hives in the apiary not a single casualty in the form of a sting was experienced. After the de-monstrations were completed Mr. Hil-lerud gave a very interesting and in-structive talk on swarm control and different methods of controlling bees so as to produce the best crop of honey. As he continued his discussion several interesting questions were asked by spectators and these were all answered by Mr. Hillerud in a very satisfactory way. Following Mr. Hillerud, Mr. W. H. Scott, dis-trict agriculturist of Sedgewick, and Mr. D. A. Andrew, of the Vermilion School of Agriculture gave interest-ing talk on Sweet Clover and other subjects of interest to bee keepers. A hearty vote of thanks was extend-ed to the different speakers and ar-rangements were made for another field day, at the same place, to be held probably in the latter part of July.

Keeping Pace With Progress

Are we keeping pace with progress?

Progress is an illusory thing. It may be seen, but so often is not perceived. Like old age or a thief in the night, it creeps upon one unawares and suddenly one awakens to realization that some profound change has taken place, an evolution has occurred. We have not been aware of the fact because of its apparent insidiousness—because its movement towards and past us has been gradual. We have seen it unconsciously but it has been too close to us for observation.

Yet despite this seeming slow approach the thing that we call progress moves with great rapidity, but it moves continually, inexorably, a step at a time, but never halting. It is an onward march that never tires, never falters.

The only way to correctly gauge progress is in retrospect. Look back a few years, only a decade or so, and the remarkable progress which civilization makes in the course of a brief span suddenly becomes apparent with startling clarity. Yet we do not see these extraordinary and far reaching changes in the making although they are going on all the time.

Turn over the leaves of the family album and immediately the truth of the assertion stares one in the face. What an extraordinary change in style of dress, in shape of headgear, in fashion of hair dressing in a few years. It appears incredible that one really looked like that 20, 15 or even ten years ago.

But progress does not mark a changing trend in dress alone. It invades every realm of activity within the ken of human experience. In the whole field of things material and in the entire mental and even spiritual arena, a steady and unrelenting advance is being made.

Hark back but twenty years and compare the means of transportation of that time with the swift cabin monoplane and upholstered limousine of today. Contrast the crude telephone of a generation ago with the automatic and the radio of the present time. Appraise the difference between the "mild prairie" trail of yesteryear with the broad gravelled highway along which we roll now.

A little reflection shows that everything with which we come in contact, everything we experience, everything we do has been subject to just as remarkable an evolution as those things to which specific reference has been made. Not only has progress made radical changes in what we wear and how we travel in a few short years, but it has wrought a similar transformation in what we eat, drink, in our amusements, in our work, in our social life, in our worship and even in what we think.

In no sphere of activity, however, has this evolution been more marked in recent years as in the field of daily work, in the realm of business, in city and country. In methods of production, in modes of distribution, in processes of marketing changes have revolutionized and are continuing to revolutionize the daily life of the individual. These changes are so pronounced and so rapid that they are apparent even to the most careless onlooker.

A writer in a popular magazine recently pointed out that such swift changes are being made in the conduct of business and commerce that heads of business houses are finding it increasingly difficult to secure young men competent to engage in commercial life without first being re-trained after they have left college. The almost daily application of new scientific discoveries in the field of business results in the college student being out of date because the course, though designed for the particular vocation he intends to follow, has not kept pace with the changes taking place in the practical arena.

This evolutionary process is going on in the whole industrial, agricultural, included, but as was stated at the outset it is not always so easy to perceive it because of its constancy and its proximity.

For this reason it is perhaps a wise thing, nay, a necessary thing to sometimes pause and look back a little, make a few comparisons with the past, and in the light of these contrasts a clearer perspective may be gained of what is happening from day to day, and perhaps even an inkling may be secured of what may be expected in future.

Only by doing this can we secure the necessary vision to enable us to keep pace with progress.

Idea Did Not Work

Berlin Courts Fined Man For Fighting Noise With Noise

For trying to conquer the noise produced by his neighbor on the floor above by a still more deafening noise, Walter Houser, a lodger in an apartment house of a Berlin suburb, was arraigned in court.

He stretched a violin string across his room immediately beneath the ceiling, and he belabored it several hours daily with a bow while none, according to a stepladder. He then screwed several hooks into the ceiling, from which he hung his vacuum cleaner in the inverted position.

The court sentenced the ingenious noise producer to a fine of 200 marks and cost of the repair of the damaged apartment.

How He Saw It

Being told to write a brief essay on "The Mule," young Gregory complied the following—"The mule is a harder bird than the guse or the turkie. It has two legs to walk with, two more to kick with, and wears its wings on the side of its head. It is stubbornly backward about coming forward."

Let's Go Fishing

But not forget to take Minard's along. It will take care of cuts, bruises or mosquito bites.

W. N. U. 1840

Canada's Trade With Bermuda

Large Quantity Of Fruits and Vegetables Imported Last Year

"The rise in exports of fruits and vegetables from Bermuda to Canada last year, from zero to 50,000 cases; one hundred thousand cases is the estimate for this year and three times that amount next year," according to Hon. S. S. Sparling, chairman of the Board of Agriculture, of Bermuda, who was a recent visitor. Mr. Sparling conferred with officials of the Canadian National steamships in regard to the Canada-West Indies service.

"The Canadian budget will be of great benefit to Bermuda," he said, "since it permits the free entry of vegetables into Canada during the winter months."

The Latest Convenience

Boxes for the mailing of letters are to be installed on busses running through rural districts in Ireland. They first will be tried on four lines terminating at Belfast, where the boxes will be cleared and the mail handled through the Belfast post office.

Manufacturing On Prairies

Prairie Province manufacturers in 1929, had a value of \$340,000,000 according to C. E. Harvey, of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers' Association.

Why Anglo-Egyptian Negotiations Failed

Britain Could Not Meet Demand For Immigration Into Sudan

A white paper published disclosed that the breakdown in Anglo-Egyptian negotiations which terminated in London, May 8, was due to the impossibility of finding any formula which would satisfy the Egyptian demand for unrestricted immigration of Egyptian nationals into the Sudan.

The document shows that little difficulty was experienced in negotiations on most points, although there were long discussions regarding the defence of the Suez Canal.

At first the Egyptians demanded that the British troops should all be concentrated on the east bank of the canal. They subsequently agreed to the British stipulation for troops to the west of the canal but no agreement could be reached on the Sudan question.

WAS RUN DOWN NOW WELL AGAIN

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her best wishes, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and badly needs help—the healthiest help that only Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to weak, dependent sufferers. Concerning them, Mrs. Paul Rial, Colin du Hanc, Quebec, writes: "I was badly run-down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health." Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Flags For Old

Fifteen Nations Have Made Change Since World War

Fifteen nations, containing more than one-third of the world's population, are living under new flags since the World War. In addition a new flag of red, white and green is now flying in India, with its 300,000,000 people, where Canada's investigations have proclaimed independence of Great Britain. In fact since the change of colors by Russia, Germany, China and other great political divisions the probability is that not more than four flags of major nations can be universally identified today.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthma which has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Engineer Will Survey Mines

Government Official To Visit All Important Centres During Season

Hon. Charles Stewart, Minister of the Interior, has announced that Supervisory Mining Engineer C. C. Ross was leaving for Port Smith, N. B., to visit all the important centres of mining activity throughout the season. He will organize the work of the office and the field parties and endeavor to ascertain the needs of the prospectors and companies. Mr. Ross will then be in a position to advise the Minister of the Interior fully on all that appertains to the future of the industry.

Plants Large Forest Area

A forest in the embryo—250 acres of it—has been planted by the Saskatchewan forestry service, in the Prince Albert region. H. P. Elster, forestry engineer, stated that the transplanting of 2,000,000 nursery seedlings and stock is the largest such programme in the province's history. Most of the seedlings are jack and white pine.

John D. Rockefeller has spent more than \$750,000,000 in benefactions during his long life.

London's statue to Marshall Foch is to be unveiled in May.

LUMBAGO?

A pain in the lower part of your back can torture you. But not for long, if you know about Aspirin! These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly; is complete. Genuine Aspirin cannot depress the heart. Look for the Bayer cross, thus:

Artistic Booklet Issued By C.P.R.

Great Help To Traveler Planning An Overseas Holiday

A pleasing series of glimpses of "Those Magic Isles," embracing England, Wales, Scotland and Ireland, is contained in an artistic booklet under that title, just issued by the London offices of the Canadian Pacific Railway.

Replete with a wealth of artistic photographic illustrations, the publication forms one of the most complete guides to the Old Country which has appeared in recent times. All aspects of the life of each country are dealt with, both in picture and story, from the teeming hub of Empire itself along the leafy lanes and hedgerows of England to the rugged shores of Wales and the mighty moors of Scotland. Ireland, both the Free States and the North, is also given considerable space, while rural scenes and graphic descriptions of popular resorts are not wanting.

To the traveler contemplating a holiday overseas it is an alluring foretaste of what is to come; to the returned voyager, it is a pleasing souvenir and an inducement to repeat the journey.

The "St. Lawrence Water Boulevard to Europe" is used yearly by hundreds of thousands of travellers in Canadian Pacific Steamships, well worthy of their "Empress" and "Duchess" nomenclatures.

Breaks Previous Record

Aerial Photographic Expert "Shoots" Mount Rainier 270 Miles Away

Capt. A. W. Stevens, Air Corps photographic expert, has broken his own record for long-distance aerial photography, "shooting" Mt. Rainier from a distance of 270 miles.

This feat carried almost 50 miles to the record established by Captain Stevens last year, when his camera registered objects 227 miles distant. The new photograph was made while in flight 20,000 feet above Crater Lake, in Oregon, and gives a clear picture of the mountain ranges stretching northward to the lofty peak of Mt. Rainier, 14,000 feet above the sea.

When the picture was taken the thermometer on the plane, which was piloted by Lieut. John Corliffe, stood at 20 below zero. A liquid oxygen supply was carried.

"Shooting at Mt. Rainier from a distance greater than that between New York City and Washington is much like shooting at the moon with the difference that you can see the moon," says Captain Stevens. "The principal task is to aim the camera in the general direction you believe your objective to be, snap the trigger and hope for luck."

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

The Practical Way

They have a practical way of doing things in the west, says the Toronto Globe. For instance, the Saskatchewan Department of Agriculture has bought a farm "absolutely polluted with weeds," and will proceed to make it blossom as the rose. A demonstration of this kind will be worth a thousand lectures on the best way to get rid of noxious growths on the farm.

Wise mothers who know the virtues of Mother Graves' Worm Expeller always have it at hand, because it proves its value.

Increase In Grape Growing

The development in grape growing by J. W. Hughes, of Kelowna, furnishes some interesting data. In 1927, he had 500 baskets, in 1928, 2,500 baskets, in 1929, 20,000, and this year he expects 40,000. A winery is offering \$100 a ton for "concord."

France expects much larger crop yields this year than last.

Minard's For Falling Hair.

Investments Along the National Show Increase

Over Seventy-Four Million Involved In Establishing Industrial Plants

New industrial plants established along the lines of the Canadian National Railway, in 1929, involved total capital investment by the industries of \$74,106,100, according to the annual report of William. Phillips, manager of the Industrial Department of the system. This was an increase of \$694,300 over the previous year, when the expenditure was \$73,409,800. Additions to plants already existing represent an investment of \$33,361,000, an increase of \$8,792,200 over 1928. On the Grand Trunk Western lines of the system, the capital investment by industry for new plants and branches totaled \$11,729,000. While this was a decrease of \$7,500,400, there was an increase of \$2,227,000 in additions to plants, the total being \$11,563,000.

Canadian development from Atlantic to Pacific, Mr. Phillips indicates, was in many fields, involving such industries as newspaper, cold storage, warehousing, grain elevators, silk mills, canning plants, foundries, distilleries, automobile plants, lumbering and mining industries. The most outstanding developments in Western Canada were in mining in Manitoba, and in cold storage plants in British Columbia. The Hudson Bay Mining and Smelting Company, and the Sherritt-Gordon Mines, Ltd., at Flin Flon, and Sherridon, expended \$10,000,000, while two cold storage plants, costing more than \$3,000,000, were established at New Westminster and Victoria, B.C. New elevators in the west represented an investment of \$1,345,600 and new oil warehouses, \$482,000.

Lesson Never Learned

Reckless Drivers Take Chances In Spite Of Daily Accidents

Does it pay to drive recklessly on the highway? The answer is simple. Nevertheless we need to be impressed now and again with the foolhardiness of throwing caution to the winds and performing menacing tactics such as cutting in on the car ahead, ignoring danger signals and so on.

Some time ago a lady motorist driving on the Hamilton-St. Catharines highway, in Ontario, committed one of those rash acts. She cut in on another car and caused a heap of trouble. As a result of her poor judgment or whatever it was, three cars were damaged, four people injured and three lawsuits followed, culminating in a judgment of \$4,650 to be paid to seven persons in adjustments. What a risk and price to pay for gaining a few car lengths! Was her time as precious as all that?

Minard's for Insect Bites.

Maps For Many Purposes

The Topographical Survey, Department of the Interior, is an organization of the Dominion Government which is engaged in making maps for many purposes. So far as practicable standardized sheets are used, the scale varying according to the information available and the purpose for which the map is intended.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Making Plants Luminous

German Gardener Demonstrates Experiment At Berlin Flower Show. It is stated that a German gardener has discovered a plan for injecting phosphorus into plants, thus making them luminous at night. The experiment was demonstrated at the Berlin Flower Show, when a large number of cacti, of all shapes and sizes were inoculated, and that, as the luminous quality concentrates in the spines, they appeared to be dotted with brilliant points of light that radiate in the darkness like glow-worms.

It isn't usually necessary that is the mother of invention. It's the desire to have a trip and a good time.

Former French Premier Has Great Faith In The Future Of Aeronautics

Giant trans-Atlantic aeroplanes hurtling through dizzy altitudes at terrific speeds, the passengers breathing oxygen supplied from special tanks, will soon make Paris less than 10 hours from New York, M. Paul Painlevé, former premier of France, told the United Press.

"Perhaps I shall live to see the day," said the 67-year-old former premier, "when these specially constructed planes will roar through the thin air at altitudes above 32,000 feet at speeds surpassing 300 and 400 miles an hour."

"When the technical problems for the construction of these high-altitude speed airboats are solved, then will trans-Atlantic air service become a reality. Lindbergh's solo flight stimulated the solution of these difficulties and perhaps before I die, aeroplanes speeding at 300 and 400 miles an hour high above both clouds, rain and tricky air currents will link Paris with North America."

Seated at his desk, littered with mathematical treatises and scientific manuscripts, M. Painlevé waved his hands at the bookshelves which covered the walls from floor to ceiling of his study.

"In 1902 when I was well along in my study of those books and was beginning to do a little mathematical thinking myself, I convinced myself that heavier-than-air flight was possible. Six years later Orville and Wilbur Wright came to France with their crazy air-machine. I knew it would fly, and it did. My six-year-old dream had come true and since then I have never lost my faith in aviation."

"Three years ago Lindbergh landed at Le Bourget. His flight was just as important as the first trial I made with Wilbur Wright in 1908. The one proved the plane was feasible, the other demonstrated it was the world's best means of rapid transportation. Lindbergh set the best aviation experts of the world studying means of perfecting aeroplane motors and equipment. The Wright Brothers, Bleriot and Lindbergh are a trio of names upon which aviation history stands."

The famous mathematician-politician declared there are only two certain methods of conquering the Atlantic by air. The first is by developing machines to fly in extreme altitudes, thus lessening resistance, increasing speed, and decreasing danger through atmospheric conditions, and the second is to establish floating islands for use with present-type of aeroplanes. Although Painlevé said he believed floating landing fields were feasible, he thought the future of aviation rested in flying high at terrific speeds. The machine would have to be constructed in such a manner to resist the unequal pressure, and both passengers and crew would have to be supplied with oxygen to breathe at such dizzy altitudes.

Six times M. Painlevé has been minister of war, and yet he is not convinced that the aeroplane is the most formidable unit for use in the next war, which Painlevé hopes will never come to his heart he is an ardent pacifist.

"Aeroplanes have their use in war," he said, "but they will not be so dangerous as many people like to believe. New anti-aircraft guns are being perfected which will make the average airman in the next war feel like a partridge under bombardment from a thousand shot-guns. No, the plane is more interesting to me for its commercial value."

"Any insanity in the family?" asked the insurance doctor of Mrs. Suffragist.

"Well, no—only my husband imagines he is the head of the house."

"Mary, I see you have drunk all my brandy."

"Yes, sir, to get over my shock!"

"What shock?"

"I broke the large mirror in the drawing room"—Paige Gales, Yverdon.

W. N. II, 1848

Translation Was Difficult

Austrian Chancellor's Remark Did Not Lend Itself To French Language

Chancellor Schober, of Austria, who has been visiting all the principal European capitals in succession during the past few months, had a curious adventure in Paris just before going to London. This adventure might be considered unimportant except that it illustrates how many European differences are due to different languages and different habits of thought.

Dr. Schober was asked by a Parisian interviewer what his conception of Austro-German relations was. The chancellor replied: "I consider Austria and Germany as one people but two nations."

The interviewer, who understands German perfectly, applauded. This definition, which emphasized Austria's determination to remain independent. But unfortunately, in attempting to translate the chancellor's words into French, he could not find the exact equivalents and made the statement read, "One nation but two states."

This precipitated a tremendous howl in the French Nationalist press and led Dr. Schober to issue a succession of statements in which he attempted to correct the false impression, but each statement led him into new pitfalls until he finally was obliged to elaborate his original epigram into the meaningless formula, "One civilization but two nations and two governments."

3248 Here is a cute model for classroom for the little sub-deb who admires snappy clothes that are simple and smart.

It is navy blue wool crepe printed in dark and vivid red tones and belted at normal waistline with plain red in the dark shade of grosgrain ribbon. The collarless neckline is softened by self-fabric bow tie.

It is moulded through the waist and hips with slight blousing above belt with new flared fulness introduced in skirt through soft gathered flounce with upward tendency at front.

This attractive style No. 3248 comes in sizes 8, 10, 12 and 14 years. For the girl of 8 years, it can be copied exactly with 1 1/2 yards of 39-inch material and grosgrain ribbon belt.

There are many other fabrics equally fashionable and suitable as crepe de chine, wool challis prints, rayon crepe and wool jersey. Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

The Power Of Lightning

Man Cannot Produce Force Contained In Single Flash

When a great thunderstorm is raging we realize something of the stupendous powers of electricity, says an article in Tit-Bits. If a cat's back is rubbed in the dark under hot dry weather, sparks will often fly from it. The sparks are harmless, though they are identical with lightning flashes, and the crackling which accompanies them is thunder on a small scale. In a thunderstorm the earth represents your hand and the clouds are the cat's back. The pressure which causes a flash of lightning may be as much as 1,000,000,000 volts—5,000,000 times greater than that which is used for household lighting. Could we collect and harness the power set free by a single flash of lightning we should have at our disposal a force greater than anything that can be produced by man.

In a famous scientist's laboratory there was tried the experiment of producing a million-volt spark. It leapt a ten-foot gap with a noise like the explosion of a bomb, and nearly wrecked the building. Most of the lightning in a thunderstorm does not approach near the earth, but discharges from cloud to cloud. Occasionally a fork tongue leaps from cloud to earth, and then anything in its path is destroyed.

Resents Removal Of Indian Carvings

British Columbia Wants Valuable Work Kept In Canada

There is great indignation at the wholesale removal of Indian carvings from British Columbia to the United States, says a letter received at the national museum, Ottawa, from an official of the British Columbia government. At present there are a great many influential people who do not want any of the objects mentioned in the Indian act, such as carved poles, carved grave monuments, carved rock inscriptions and paintings on cliffs and large boulders, removed from the province, the letter continues.

Commenting on the matter, the archaeologist at the national museum declared that recently a retired United States naval officer collected certain beautifully carved spindle whorls, formerly used by the Indians in spinning mountain goat wool, and took them out of the dominion while a representative of the national museum was searching for just such specimens.

Will Be Well Represented

Fifty-five cities in the United States and Canada will be represented at the fourth World's Poultry Congress which has been organized by the governments of Great Britain and Northern Ireland, and a large number of the attending poultrymen will sail on the Canadian Pacific liner "Duchess of York" from Montreal on July 12, headed for the Crystal Palace, London, where the Congress will take place, from July 22-30.

A recently invented radiophone makes it possible to talk 200 feet underground and through solid stone.

Workingmen's singing clubs are becoming popular in Germany.

New Vice President

George Stephen who succeeds W. R. MacInnes as Vice-President in charge of Traffic, Canadian Pacific Railway.

Poultry From E.P. Ranch

Prince Of Wales Will Exhibit At World's Congress

Birds from the ranch of H.R.H. the Prince of Wales, at Pekisko, near High River, Alberta, will be among the many interesting exhibits at the World's Poultry Congress, to be held at the Crystal Palace, London, England, July 22 to July 28, 1930. Another exhibit that is likely to attract attention will be the birds from the royal aviary at Windsor Castle. Canada has a particular interest in this aviary for among the birds are some Canadian Burred Rock presented to His Majesty, King George V, by the Canadian Government following the second World's Poultry Congress at Barcelona, Spain, in 1924. This was the finest that could be procured in Canada. An exhibit of 1,000 birds is being sent to the World's Poultry Congress from Canada.

One Way To Count Cost

Expenditure In Great War Would Have Built Many Garden Cities

The League of Nations reports the cost of the Great War at \$363,000,000,000 and 37,000,000 lives—that is four times the total population of Canada, not merely of lives, but lives of selected men, competent in virtue of admirable qualities to meet the most terrible responsibilities that an imperfect civilization can place upon men. The cost in money would have built 181,000 garden cities, where the evils of congested living, the sordidness, the ugliness and the despair that breeds resentment, anger, broken homes, ill-bred children, crime and disease would have had no seed bed for growth.

An All Canadian Firm

The Beatty Brothers factory at Fergus, Ontario, has made a record shipment of laundry equipment sets—some 8,000 of them—over Canadian Pacific lines for various destinations. It is pointed out that every item of the equipment was made in Canada and every official and employee of the company is Canadian.

Some specimens of the California fan palm reach an age of 200 years.

SAIL INLAND OCEANS

Passenger service on the Great Lakes is now opened for the summer season, and the three fine vessels of the Canadian Pacific fleet on these waters, S.S. Assiniboia, S.S. Keewatin and S.S. Manitoba, are now at the disposal of the public. Travellers wishing to vary the railway trip between Toronto and Winnipeg, are now able to make a pleasant change by taking ship at Port McNicoll and passing through Lakes Huron and Superior, via Sault Ste. Marie, to Port Arthur and Fort William. At the latter point they tranship to the Canadian Pacific trans-continental train and continue their journey to Winnipeg and the coast. Lay-out shows S.S. Assiniboia, a fine vessel of 3,880 tons, and having accommodation for 290 first-class passengers, and sketchmap of Great Lakes route.

Provinces Need Aid Of Federal Government To Build National Highway

Annual Agricultural Statistics

Every Farmer Asked To Fill In and Return Schedule

It is the custom of the Dominion Bureau of Statistics to co-operate with the nine provinces in taking a Dominion-wide census of important agricultural facts in June of each year.

The census takes the form of a simple cardboard schedule, distributed to individual farmers through the medium of the rural school teachers and pupils in seven provinces, and in Ontario and British Columbia through the rural postal offices. The essential object is to reach every farmer and to encourage as many as possible to fill in and return the schedule.

The two main phases of farm production—the areas of field crops and the numbers of live stock—are covered by the form. The areas of field crops determined from the schedules are combined later in the season with the estimated average yields per acre to determine the total yield for the country. In the case of wheat, particularly, the importance of having correct estimates of acreage is thus made apparent. Although there are many estimates of anticipated production, most of these are based on the one official acreage estimate, which has been issued annually since 1917, by the Dominion Bureau of Statistics.

It is unnecessary to emphasize the value of a wide sample to the attainment of accurate statistics, and it is our hope to obtain a completed schedule from the great majority of Canadian farmers. The more numerous the returns received, the more reliable will be the estimates compiled from them. Much of Canadian economic enterprise depends to some degree on correct estimates of agricultural production in the making of their plans.

If any farmer does not receive the cardboard schedule by the middle of June, he should apply to the school teacher of the nearest rural school, or his provincial Department of Agriculture, or to the Dominion Statistician, at Ottawa. Letters addressed to the Dominion Statistician require no postage.

Is Doing Good Work

Junior Red Cross Teaching Children To Avoid Diseases

The number of deaths of children of school age would be "shocking" if we were not so accustomed to their daily and hourly occurrence. There is such a death every ten minutes. It is nothing short of appalling to study the statistics of the mortality and morbidity of our school age boys and girls. Such a tale of woe as the story of death and its causes has been given us by our neighbors across the line. Dr. J. F. Rogers, Chief of School Hygiene Division, and Physical Education, Washington, has issued a sheet of figures that should be in the hand of every parent and school teacher.

Roughly speaking in the registration area of 103,000,000 persons, one child in every five hundred children died in a year. A thoughtful reader will look with interest at the reasons for this slaughter of the innocents. Particularly striking is it, in these days of speed traffic, to observe the figures for accidents and automobile deaths. Seven per cent. died from autos and 21 per cent. from accidents.

The doctor goes on to say that practically all the deaths from the following diseases were preventable. Typhoid, smallpox, diphtheria, dysentery, syphilis, rabies, tetanus. By better protection from infection tuberculosis would take a less heavy toll. With greater sick-care and more knowledge fewer children would die of measles and scarlet fever, whooping cough, etc. It was estimated that there could be a certain saving of 5,000 lives a year, or thinking in terms of cents and dollars \$100,000,000.

There will doubtless be better machinery established for public health in the generations to come, and this reproach will be wiped away. Today among the foremost agencies in the field for the furtherance of a healthier citizenry is the Red Cross. Its far reaching Junior Work has enlisted approximately 12,000,000 Juniors in the fight against disease and dirt.

A Navajo squaw would not think of making a perfect rug, for tradition says that blindness would follow such a deed.

Czecho-Slovakia's output of coal last year was one of the greatest in the country's history.

A complete trans-continental highway in Canada may be a somewhat remote goal, but it is worthy of observation that it is now engaging the attention of Members of Parliament from one end of the country to the other. In the recent debate on the subject, several parliamentary leaders, as Hon. Dr. Manion, Hon. Charles Stewart, Hon. Hugh Guthrie, Hon. Charles Dunning, the Prime Minister, Hon. R. B. Bennett, Mr. Woodsworth and others indicated an increasing concern for the scheme. In connection with the matter, Dr. Manion supplied the interesting information that there remains only some 330 miles of highway yet to be constructed, and he advanced the argument that as this was through unproductive portions of territory, it must well be expected that the Dominion would contribute towards the construction of it. One of the strongest arguments in favor of the project advanced in the House of Commons was that there is no national highway communication above the head of the Great Lakes and that transportation by motor must be through a foreign country. A year ago Mr. King estimated the cost of a national trans-continental highway at 200 million dollars. But Dr. Manion suggests that the link above the head of the Great Lakes might be completed for 5 or 6 millions. His suggestion that the Dominion might very well co-operate with Ontario regarding the cost seems not unreasonable. Dr. Manion put the matter in this way: "There is this to remember regarding the building of national and provincial highways, that the provinces are in perhaps a rather difficult position to undertake alone the building of a national highway. Take, for instance, across the northern section of Ontario extending from Sudbury to the Manitoba boundary, an area nearly as large as Germany and France put together, with a population of only 200,000. This sparse population requires branch roads and a large amount of money is being expended in the construction of branch colonization and settlers roads. Therefore the provincial government should not be expected to build the whole of this national highway across that section of Northern Ontario. That, after all, is the only section remaining to link up these different roads which could be, for the time being at least, turned into a trans-Canada or a Canadian national highway. Therefore, because of the demands of the province, it is particularly necessary, if the road is to be built, that the Dominion Government should take part in the work. The Dominion Government should also take part in this road-building from the national aspect of linking up the east and the west."

People Make Living From Watercress Beds

Plant Grows In Profusion In Picturesque English Village

Motoring between Henley and Netbed recently, says a writer in the London Evening News, I came for the first time upon "Watercress Village." It must be unique in England. Its name is English, pronounced Yewelm. A stream as clear as crystal runs down the middle of the village street, and watercress grows in profusion in it. Rustic bridges cross the stream and lead up to the cottage gardens. Further broad expanses of watercress beds lie beyond the cottages, and the occupants make a living from watercress.

Not What He Meant

To attract the custom of the foreigner, Japanese tradesmen often put up signs in what they consider to be idiomatic English. Such signs contain amusing mistakes. One of the funniest is that exhibited by a Japanese baker in Tokio; it reads: "A. Kashinuru, Biggest Loafer In Tokio."

"Why didn't I see you in school this morning?" "Because I wasn't there." — Mosquito, Chariot.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form,
of the Bank's

SEMI-ANNUAL STATEMENT

30th April, 1930

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$ 688,067,754.78
Payable on demand and after notice.	
Notes of the Bank in Circulation	38,473,147.00
Payable on demand.	
Letters of Credit Outstanding	10,941,971.37
Financial responsibilities undertaken on behalf of customers for commercial transactions (see offsetting amount (s) in "Resources").	
Other Liabilities	8,745,783.97
Items which do not come under the foregoing headings, including \$5,000,000 advances from the Dominion Government under The Finance Act.	
Total Liabilities to the Public	\$ 746,228,657.12

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits & Reserves for Dividends	76,370,991.11
This amount represents the shareholders' interest in the Bank, over which liabilities to the public take precedence.	
Total Liabilities	\$ 822,599,648.23

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 94,421,408.82
Notes of and Cheques on Other Banks	45,507,317.11
Payable in cash on presentation.	
Money on Deposit with Other Banks	15,448,293.39
Available on demand.	
Government & Other Bonds and Debentures	121,661,712.27
Gold-edge Securities practically all of which mature at early dates.	
Stocks	922,087.90
Railway and Industrial and other stocks at or below market value.	
Call Loans Outside of Canada	68,028,615.57
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	27,460,856.27
Payable on demand and secured by bonds and stocks of greater value than the loans.	
TOTAL OF QUICKLY AVAILABLE RESOURCES	\$ 373,450,296.33
(equal to 51.03 of all Liabilities to the Public)	
Other Loans	417,998,828.93
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00
Two properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate and Mortgages on Real Estate	1,930,456.44
Acquired in the course of the Bank's business and in process of being realized upon.	
x Customers' Liability Under Letters of Credit	10,941,971.37
Representing liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not Included in the Foregoing	3,778,095.16
Making Total Assets of	\$ 822,599,648.23
to meet payment of Liabilities to the Public of	746,228,657.12
leaving an excess of Assets over Liabilities to the Public of	\$ 76,370,991.11

PROFIT AND LOSS ACCOUNT

Profits for the half year ending 30th April, 1930	\$3,543,017.87

Power Aplenty for Plowing Time with the Oliver Hart-Parr Tractor

Power is what you need at plowing time—dependable power that will keep on turning the furrows from morning till night. That is the kind of power you get from the Oliver Hart-Parr Tractor.

In the Oliver Hart-Parr, no power is wasted. The simple design of the Hart-Parr transmission enables it to deliver nearly 50 per cent more than its rated drawbar power.

Put Hart-Parr power to work at your hardest plowing job . . . and watch it perform! Come in and see it.

HALF YEARLY PROGRAMME AVONDALE U. F. W. A. 1930

President, Mrs. Isa Shotts.
Vice-Pres., Mrs. Kathryn Johnson.
Sec. Treas., Mrs. Elsie Coulman.
Directors, All members.

Program

We want you all at our U.F.W.A. meetings held on the fourth Thurs. day of each month at 2 o'clock.

June 12th — Hostess, Mrs. Gray.
If you were busy being kind
Before you knew it you would find,
You'd soon forget to think 'twas
true.

That someone was unkind to you.
Opening song, "My Old Kentucky Home."
Lord's Prayer, Mrs. E. Prior leading. Roll Call, "The kind-est thing that was ever said to me," Paper by Mrs. Allen on "World Peace." Paper by Mrs. Ballentine, "Why we should belong to the U.F.W.A. Special music, Recitation by Mrs. Marshall. Current Events by all members. Question box. Closing song, "Auld Lang Syne."

July 24th—Hostess, Mrs. K. Johnson.
"Finally" brethren, whatever things are honest, whatever things are just, whatever things are pure, whatever things are lovely, whatever things are of good report; if there be any virtue and if there be any praise, think on these things."
—Extract from Paul's letter to the Philippians.

Opening song, "Old Folks at Home." Lord's Prayer, Mrs. McCreadie leading. Entertainment. Speech by director of U.F.W.A. for Battle River. Special music. Roll Call, "Getting the best out of life." Current Events by all members. Question box. Closing song, "God Save the King."

August 28th—Hostess, Mrs. Caesar.
Oh, the rain and the sun,
And the sun and the rain;
When the tempest is done,
Then the sunshine again.
And in rapture we'll ride
Through the stormiest gales,
For God's land's on the helm
And his breath in the sails.
Then murmur no more
In lull or in roar,
But smile and be brave
Till the voyage is o'er.

Opening song, "Blest be the Tie that binds." Reading, Short passage from the Bible, Mrs. K. Johnson. Demonstration, Making of paper flowers, Mrs. Marshall. Roll Call, "If you could have one more labor saving device what would it be, and why?" Current Events. Question box. Closing song, "Old Black Joe."

Sept. 25th—Hostess, Mrs. Allen.
It's easy to be happy
When you win in the game of fame,
Though the fights you fought
To get what you got,
Make you worthy of winning the game.

But now that the struggle is over,
The game has just begun,
It's not easy to be a good loser
When the other fellow won.

Opening song, "Bringing in the sheaves." The Lord's Prayer, Mrs. Caesar leading. Roll Call, "What my sister or brother means to me." Paper, "The value of music in the home" by Mrs. K. Thomson. Violin solo, Mrs. Prothero, accompanied by Mrs. Shotts, piano. Current Events, members. Question box. Closing song, "Home Sweet Home." Discussion of Chicken Supper.

Oct. 23rd—Hostess, Mrs. S. Thomson
Smile a little, smile a little,
As you go through,
Not alone when life is pleasant,
When things go wrong,
Care delights to see you frowning
Loves to hear you sigh;
Turn a smiling face upon her,
Quick the dame will fly.
Opening song, "The Maple Leaf for Ever." The Twenty-third Psalm, by Mrs. Shotts. Roll Call, "My Pet Extravagance." Demonstration, "Making patients' beds, also packing a suit case," by Mrs. Slipper. Story by Mrs. M. Thomson. Current Events, members. Question box. Closing song, "Now the day is over."

Nov. 27th—Hostess, Mrs. E. Prior.
To each is given a bag of tools,
A shapless mass, a book of rules;
And each must fashion, ere life's h's
flown,
A stumbling block or a stepping
stone.

Opening song, "Where the river Shannon flows." The Lord's Prayer, Mrs. E. Whiteley leading. Roll Call, "Suggestions for Xmas Gifts." Paper, "Something to be thankful for," by Mrs. I. Shotts. Paper, "Woman's place in Politics" by Mrs. Allen. Violin solo by Mrs. Prothero. Talk "A tray for the sick," by Mrs. Ballentine. Question box. Closing hymn "All good things surrounding."

Dec. 18th—Hostess, Mrs. Ballentine.
It came upon the midnight clear,
That glorious song of old,
From angels bending near the earth
To touch their harps of gold.
"Peace on the earth, good will to men
From heaven's all gracious King."
The world in solemn stillness lay
To hear the angels sing.
Opening song, "Hark the Herald Angels sing." A short Psalm, by Mrs. E. Whiteley. Roll Call, "My favorite hymn." Dialogue, by Mrs. K. Thomson, Mrs. M. Thomson and Mrs. Ballentine. Debate, "Resolved that the New School Act is an improvement over the present system." Affirmative, Mrs. K. Thomson, Negative, Mrs. R. D. Allen. Election of officers. Closing song "Holy Night."

NEWS ITEMS FROM KINSELLA

The Women's Institute met on Saturday afternoon last in Lee's Hall, there was a very large attendance. The next meeting will be on June 14th when they will entertain the W. I. of Viking. The affair will be held in the United Church.

On Friday evening, June 6th, the Tennis Club are holding a dance in Lee's Hall.

Mr. Cunningham, Mr. and Mrs. Nease and son, and Miss Ferries spent Saturday last at Vermilion. Mr. and Mrs. McKie and family and Mr. Nease spent the 24th of May at South Cooking Lake.

The Ladies Aid will meet at the home of Mrs. C. Smogard on Thursday, June 12th at 3 p.m.

Rev. Mr. McNeal returned from Edmonton on Saturday evening where he had been attending the Conference. He was accompanied home by his friend Mr. Duprose. Mr. Duprose spoke in the church here on Sunday morning, his subject being, "The Missionary Work in Trinidad," which was very much enjoyed by all present.

Mr. Pickering of Vancouver, B.C. arrived here last Tuesday to begin work on Mr. P. J. Wangness house. Mr. Hogan Land of Viking is here helping his brother-in-law Mr. P. J. Wangness.

Mr. William Anderson spent Saturday at Irma and Clark Manor.

Mr. and Mrs. Ross McFarland and family of Irma spent Sunday afternoon at Ross Eaton's.

Mr. and Mrs. Percy Jones and family of Irma called at Ross Eaton's on Sunday evening.

Mr. B. Wachter, B. & B. foreman for the C. N. R., and his son, Clau, spent Sunday at their home here.

The Tennis Club are having a new fence put around the tennis court.

M. Raymond Millar, of Black Diamond, is visiting his mother, Mrs. William Kerns.

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that —
One Brown Gelding, 8 or 9 years old, weight about 1000 lbs., hind feet white, old wire cut left foot, branded H with short bar over left leg over X7 on the left shoulder, was impounded in the pound kept by L. Schmutz located on the S. E. 22-45-12-4 with on Monday the 19th day of May, A.D. 1930, and that the said animal was sold on the 29th day of May, 1930, to W. Sowinski of Kinsella, Alta.

—and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

We Buy Your Cream for Cash

AND PAY TOP PRICES FOR IT

The farmer who hopes to make a living in wheat alone is beginning to learn the great truth that it can't be done and is turning to the humble cow as a means of making a living.

In a year of depression such as this, the cream cheque from us may help in keeping the proverbial wolf from the door. And he has been hanging pretty closely around the door this winter, but it is remarkable how when Mr. Wolf hears the sounds of milking and the hum of a separator, he hits back to the fastnesses of the forest home in which he belongs.

Bring your cans to Simmons Bros for shipment. Cheques by return mail direct to you.

Weariness is dangerous. Weary miles seem shorter and the day is brightened when you have Wrigley's with you. Its sugar pep up your. Its delicious flavor adds to any enjoyment.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Charles Camsell, deputy minister at Ottawa, was chosen to head the Royal Society of Canada for the next year.

Since removing of embargo on export of precious metals in January, the amount of gold shipped from Japan totals about \$87,450,000.

Bert White, 77, leapt from an aeroplane 25,000 feet above Lancaster, California, and made a safe landing, in an attempt to make a record parachute jump.

Construction of a 1,500 mile elevated electric railroad across the Sahara Desert is under discussion in Paris. The estimated cost is \$117,000,000.

William Chalmers, of Vancouver, "B.A." and "M.A." graduate of McGill University, has been awarded the Governor-General's silver medal for graduate research in chemistry.

Hon. Dr. J. H. King, Dominion Minister of Pensions and National Health, is the new president of the Canadian branch of the St. John Ambulance Association. He succeeds Senator Hewitt Bostock.

Miss Betty Carstairs has bought a whole boat building yard at Cowes, England, in order to keep secret the details of a speedboat she is building in the hope of capturing the world's speedboat title.

The Senate has passed more divorce bills during the present session than in any other year during the past ten years. If not since Confederation, it was revealed in a report submitted recently by Hon. A. B. Cope, vice-chairman of the divorce committee.

James Smart, District Inspector of Dominion Forestry Services, with headquarters at Prince Albert, Sask., has been appointed superintendent of the Riding Mountain National Park, in Manitoba. The appointment was announced by Hon. Charles Stewart, Minister of the Interior.

Service Becoming Popular

Passengers Are Using Telephone On Canadian National Trains

Since the installation of telephone service on the Canadian National trains, there has been an average of six calls a trip, between Montreal and Toronto, and in the other direction, according to W. D. Robb, vice president, in whose department the service comes. Most of them have been from the train to Montreal, Toronto, Kingston, Oshawa, Hamilton, London, and other points, one being made to Ashville, New York. Several have been made to the moving train from outside points.

Colonel Gustavo Leon, noted Mexican aviator, will attempt in May to follow the Lindbergh air trail across the Atlantic, if efforts to finance the venture are successful.

One of life's little ironies is found in the fact that a fifty-dollar telephone pole can so completely demolish a \$3,000 motor-car.

Ireland Only Country Without War Memorial

Money Subscribed But Political Feeling Has Barred Erection

Of all the countries that took part in the Great War, Ireland is the only one still without a National Memorial to her dead. The money, some £50,000 has long since been subscribed, but political rancour has all along thwarted the objects of the subscribers. It is felt by a great body of Irishmen abroad as well as at home, that a National tribute to the 60,000 Irish soldiers who fell in the War should occupy one of Dublin's best central positions. Political feeling, however, has rendered this impossible, and all the assistance that the Free State Government have given in the matter has been to offer a site beside a little-used roadway some miles beyond the city boundary. This proposal the Memorial Committee naturally rejected, and it is quite possible, that, if as an alternative to a central city site a prominent place in Phoenix Park cannot be obtained, Belfast may be asked to find a position worthy of the Memorial.

Winnipeg Newspaper Union

(By Annebelle Worthington.)

A tiered model in printed silk crepe reflects a new note in modified Princess styling, which makes it so suitable for casual daytime wear. The tiers show a downward curving tendency at back, a clever means of lengthening the silhouette. They are finished at top with novel faille crepe silk applied band that ties in youthful bow at front.

The neckline in deep open V-shape employs the same trim for applied band. Long sleeves also gathered into cuffs of the crepe with tab ends. Design No. 3278 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches.

The trimming bands work out nicely out from the dull surface in crepe satin, which is so important now in soft brown shade.

Black silk crepe, plum shade in wool crepe, tiny self-checked pattern in bottle green feather - velvet woolen, tomato red crepe de chine, crepe marocain in dahlia purple and navy blue faille crepe appropriate and chic.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Advice For Farm Boys

The difficulty in securing work in the towns and cities abroad, will have a tendency to make young men more contented on the farm, and give them a desire to make improvements there that might ultimately put them on the road to better things. Flat as farming is at the present moment, it is no flatter than the trade in the towns and cities.

New Motor For Airplanes

May Solve Problem Of Ocean Flying Says German Authority

A tiny motor about as big as a beer bottle, with characteristics of both a blast furnace and a refrigerator, may solve ocean flying, believes Dr. Paul Heylandt, liquid gas authority, will lead to development of a special type of rocket-propelled plane which will shoot up 40,000 feet and travel at 650 miles an hour.

The motor, an elongated, pistol-shaped drum of hardest steel, is a one - cylinder, valveless contraption devoid of pistons or other movable parts into the front end liquid oxygen is sprayed, while into the further end, near the exhaust, liquid fuel, such as wood alcohol, benzene, gasoline, or even fuel oil is injected.

At the entrance points of both components into the motor there are spraying attachments which diffuse the liquids over the entire hollow inside. The liquid fuel is ignited as it comes in contact with the liquid oxygen. The result is as continuous, steady combustion which produces a recoil of 220 horse-power with a motor of only 11 pounds. The best German automobile motors produce only about half a horse-power of propulsive effect per pound.

As the two components explode, they emit a steady stream of smokeless, sootless fire about a yard long. The noise is deafening, and easily greater than that of the 2 motors of Dornier's "DO-X" combined. The heat at the exhaust is such that, when Valier during one demonstration did not mix the two components correctly, the exhaust simply melted away. Cold produced by the liquid air is such that the conducting pipes accumulate a thick coat of frost.

"Our experiments with the rocket car are only a step toward our real goal, a motor for aeroplanes intended to go up into the atmosphere," Dr. Heylandt observed. "One essential thing is that both components are so separated as to avert all danger of explosion."

"The rocket car will never be a practical proposition except for racing purposes. Naturally, no police authorities could stand for a car making such a noise. As soon as possible, therefore, we want to experiment with a rocket 'plane'."

A Tribute To Nansen

Explorer Did Splendid Work After Close Of War

Fridtjof Nansen, when the war closed, was already fifty-six years old. Arctic exploration is a young man's game; or should be Nansen's chief assault upon the Pole, the voyage of the "Fram," was already a quarter of a century in the past. He had won credit and fame as a scientist, educator, administrator of learned bodies. It could hardly have been supposed that his chief life work still lay before him.

Nansen lived in a small country, a country neutral in the war. He was a natural choice, an ideal one as it proved, to head the great work of repatriation of war prisoners and the relief of hunger in civilian populations. He threw himself into the work with all his splendid energy and mitigated to some extent the sufferings of millions of half-starving people. His work in Russia representing forty-eight Red Cross societies and twelve nations served as aid and precursor of Mr. Hoover's great task of relief which Russians remember with so much gratitude.

Nansen served Norway more particularly, but still in the pathway of peace, as its representative with the League of Nations. In 1924 while so serving he was instrumental in smoothing the way of Germany into the League. In 1925 the Nobel Peace Prize was awarded to him with universal approval. In 1925 a very unusual honor was paid to him in a foreign land by his election as Rector of St. Andrew's University. His closing years found him still happily engaged in scientific pursuits and in the completion of his admirable body of literary work. His was the singularly useful career of a well equipped man whose talents and ideals exactly fitted the needs of the stirring times through which he lived.

Not Ashamed To Ask

"How is it that you have attained so high a degree of knowledge?" was the question once put to an Eastern sage.

"My son," answered the wise man, "my knowledge has come to me in a way that thou canst easily follow: What I knew not, I was not ashamed to ask about, and by this means have gathered much wisdom."

Many Areas Tested

Since beginning the testing of cattle for tuberculosis in 1915, a total of 1,469,749 animals have been tested in Canada and 14 areas declared free of the disease.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect.

Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

Recipes For This Week

(By Betty Barclay)

ASPARAGUS WITH MACK HOLLANDAISE SAUCE

- 1 tablespoon butter.
- 2 tablespoons flour.
- 1/2 cup milk.
- 1/2 teaspoon salt.
- 1/2 teaspoon pepper.
- Few grains cayenne.
- Yolks of 2 eggs.
- 1/2 cup butter.
- 1 tablespoon lemon juice.

Asparagus.

Prepare as for white sauce. Stir in beaten egg yolks after sauce is cooked. Add the 1/2 cup butter bit by bit and finally the lemon juice. Pour over strips of cooked asparagus. Garnish with pineapples.

The savory flavor of celery top greens blends well with roast fowl and dressing.

SALMON LOAF

- 1 tablespoon lemon juice.
- Cayenne.
- 1 teaspoon salt.
- 1 lb. can salmon.
- 2 small eggs.
- 1/2 cup chopped celery.
- 1/2 cup bread crumbs.
- 1/2 teaspoon baking powder.
- 1/2 cup evaporated milk.

Add lemon juice, cayenne and salt to boned, flaked salmon, then beaten eggs, celery, bread crumbs, baking powder and milk. Shape into a loaf and place in an oiled baking pan. Bake in a moderate oven (350 degrees Fahrenheit) until brown and firm. Serve with medium white sauce or egg sauce. Yield: 5 servings.

Dairying and Mining

The annual value of Canadian dairy products—\$297,625,000—is a few million dollars less than the annual value of the mineral production of the Dominion. A total of 280,000 farmers supplied milk and cream to the 2,833 dairy factories throughout the Dominion last year.

Pedestrians who cross the streets recklessly in Berlin are to be prosecuted. After they come out of the hospital, probably.

Has Furnace Underground

Novel System Used By Oklahoma Gardener To Speed Up Vegetable Growth

The thought of growing celery, sweet potatoes, tomatoes, radishes and the like in the State of Oklahoma before winter is over, without the aid of hot-houses, seems impossible. But E. B. Johnson, local agricultural expert, has a novel system with which he is just doing that.

His method lies in the installation of a furnace heating system which keeps the winter-chilled ground at a moderate temperature until warm-weather arrives. Pipe, six inches in diameter, runs from the furnace and is placed in parallel rows, three feet apart. At one end are the furnace ovens and at the other chimneys to draw the smoke through.

The first of this series of furnace heated gardens installed by Johnson is 37 feet long and 30 feet wide with 10 large chimneys, each connected with a string of pipe.

At the front end of the garden, where the furnaces are, the heat is greater so Johnson has buried the tile 24 inches in the ground with a general incline as they approach the chimneys until at the rear they are but five inches underground.

Over this bed of seed he has placed an inch of dirt and four inches of sawdust, the latter to be removed when the weather moderates. It is only necessary to keep the fire going until the seed starts sprouting.

Johnson, through years of experience, has worked out this heating ratio almost to perfection. For a number of years he was connected with various fruit and vegetable growers in and near Rogers, Ark., and last December moved to Oklahoma to pioneer such a movement in this part of the country.

Sweet potatoes were planted by Johnson on March 17, and he expected to have small slips fully a month earlier than they can be grown elsewhere. Ordinarily under local weather conditions it would be May 15 before plants as large could be raised, Johnson says.

Johnson has built up quite a name for himself as a certified seed grower throughout the southwest. His ship sweet potato plants to all parts of the United States and last year furnished a greater part of the sweet potato slips shipped into the state of Washington.

George D. Rule, state sweet potato inspector for Oklahoma, has approved Johnson's present line of work. Johnson for years has worked under the supervision of the state board of agriculture.

A Peculiar Accident

When the parachute worn by a mechanic flying in an army plane was accidentally opened, the mechanic was pulled into the air, smashed against the tail of the plane, and pilot and mechanic were killed when the machine fell into the sea.

Orchids priced at \$500 a plant were recently exhibited in London, England.

Changing Styles In Fiction

Each Generation Has Different Ideas Of What Is Interesting

There are faint but unmistakable signs of a revolution against the new style of war books which have been all the rage for a year past. That is as it should be, for they were neither great literature nor true to life as a rule. On the whole they were read less by grizzled veterans than by young ladies who liked being shocked by stories of strong drink and strong language at secondhand.

It was a change from what the trade called Sheik-stuff which was itself a revolution from the Sentimental Tommy style, which was itself a novelty after strong silent men, gods in the car, and other sternly masculine types that delighted and thrilled the feminine readers of thirty years ago. So the clock of fashionable fiction goes round, and every generation worships the idols of its fathers under the delusion that they have discovered something new.

An Unusual Bequest

Deaf Woman Wills Ears To Science For Research Purposes

In the hope that medical science can aid others by a study of her ears, deaf since childhood, Miss Abby Hosmer, 70, wealthy Chicago woman, has willed them for research purposes after she dies.

The unusual will was announced by Dr. Austin A. Hayden, at a meeting of physicians and ear specialists.

"Until medical science can have opportunity to make microscopic studies of the ears of those deafened during their lifetime, we will remain considerably in the dark as to why one out of ten persons suffers from some form of this malady," Dr. Hayden said.

At any rate the Toronto Telegram points out, there are eight young citizens of Canada who are not puzzled over what they will call the new lady senator.

Get In On The Ground Floor

Invest in a company owning Canadian, United States and British patents on articles being used by Railroads, Steamships, Oil and Mining Companies, Hotels, Factories, Warehouses, Homes and Office Buildings. Write at once for full particulars to S. P. MILLER, 904 Dominion Bank Building, Vancouver, B.C.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

IRMA SPORTS

Watch for Sports announcement for June 18th.

Mr. and Mrs. E. T. McDowell, spent the week end in the city. Roseberry district picnic will be held at the old picnic grounds on July 9th.

Mrs. A. M. Matheson, was a visitor to the City the first of the week.

Mrs. S. R. Bowerman, the Liberal candidate for Wainwright Constituency is holding a meeting in Kiefer's theatre Friday, tonight. Mr. Bowerman has a lot of friends in the Irma district and he is endeavoring to meet as many as possible before the election.

Mr. F. M. Hill, W. T. Barber, Jas. Hedley, Chas. Wilbraham, A. White and R. Larson, members of the Irma I. O. O. F. Lodge, was in Killam, Wednesday afternoon to attend the funeral of one of the Killam Odd-fellows.

Last Friday night while Mr. J. Dalton was driving his car over the Fabyan bridge his windshield was pierced by a bullet evidently fired by some one in the bush or on the hill. Mr. Dalton did not hear the report from the rifle nor did he see anyone along the road.

A record crowd turned out Tuesday to take in the Jarow Sports which were pulled off in a very satisfactory way. We will endeavor to have a full report of these winners for next issue.

Mr. N. D. McMillan has returned from Rochester, Minnesota, where he spent a few days undergoing medical examination. Mr. McMillan, we understand received a favorable report from the specialist and expects to be completely recovered in a short time.

Mr. Sanford Merrick, of Wainwright was elected by acclamation to fill the vacancy on the Council of the Municipality of Battle River, caused by the recent death of Mr. N. B. King. Mr. Chas. Clark left Monday to accept a position for the summer at Slave Falls, Manitoba.

The infant daughter of Mr. and Mrs. O. Steffenson, born May 23rd passed away May 31st and was buried in the Irma cemetery June 4th. Mrs. Steffenson is doing nicely. Mr. and Mrs. Steffenson have the sympathy of a host of friends and neighbors in their bereavement.

While watching the ball game at Jarow Tuesday, Mrs. W. M. Morgan, wife of the proprietor of the Service Garage at Jarow had the misfortune to have her nose broken and her face badly cut by a bat that slipped from the hand of one of the batters. Mrs. Morgan was removed to her home where Dr. Greenberg was called to dress the wound. Mr. Geo. Inklin also received a hit on the side of his face which almost knocked him out.

Owing to the tardiness of one of the actors, the Ladies Aid play "Cranberry Corners" was unable to commence for forty-five minutes past time, greatly to the inconvenience of a good house. The play was well received and the two reels of talkie pictures put on by Mr. Kiefer after the show was pronounced as good as any that can be seen in any of the city theatres. It was past midnight before the show was over, otherwise everyone had a good time.

Mr. and Mrs. A. Muckleston are visiting friends in Edmonton.

Mrs. M. Snyder, living north of Jarow had a serious accident last Saturday morning when she fell, breaking her left leg near the hip. Mrs. Snyder who is 92 years of age was attended by Dr. Greenberg of Irma, who had her removed to the Viking hospital where we understand that she is resting comfortably.

The Irma Church was filled with most of the old timers, last Friday afternoon when they met to pay their last respects to the late Mrs. R. M. Harper, who passed away Monday, May 26th. The casket was covered with lovely floral tributes contributed by the following: The Irma Ladies Aid, Mr. and Mrs. Ross McFarland, Mrs. and Mrs. I. T. Skiles, Mr. and Mrs. J. Fletcher, Mr. and Mrs. G. Arnold, Ina, Bessie, Clark and Willie, Mr. and Mrs. Chase and Forrest, F. A. Barr, Family, Rev. Mr. Trendle conducted a very appropriate service and the following old timers acted as pallbearers: J. C. McLean, G. A. Tripp, T. Shaw, G. Arnold, T. Yarr, and H. W. Love.

NOTICE

The Ladies Aid are holding a lawn social at the home of Mrs. M. T. Knudson on Wednesday, June 18th from 3 p.m. to 10 p.m. Outdoor sports will be arranged, baseball, horseshoe, races for children. Cafeteria supper will be served, also ice cream and cake. Come and enjoy a good afternoon's fun.

The Ladies Aid meet at Mrs. Eldon Fenton's.
